

Is there anything you didn't get to share during the meeting or that you want to elaborate on now?

No, a lot of answers were provided of things I wasn't even aware of.

No

No

No

Please list any technical difficulties that affected your participation.

The sound at times was garbled by those speaking, cleared up quickly though.

None

N/A

I did not experience any technical difficulties that affected my participation.

Please list the most valuable portion(s) of the meeting.

A variety of speakers to keep attention. Data quality redesign and knowledge base location

Future goals

Learning about Knowledge Base and the Quarterly Data Quality Improvement

2018/2019 Year in Review and 2019/2020 Highlights

Please list the least valuable portion(s) of the meeting.

It was all valuable.

None

ICA Performance Review

None

Please list any ideas you have for increasing participation in next year's Annual Meeting.

I don't have anything

It was all good

On site and webinar work great. Menti work perfectly

Having some kind of opportunity for individuals to provide feedback on what they want to get out of the annual meeting.

It would be helpful to have a web cam in the in person room for those of us that were not there in person.

Please list any other suggestions for next year's Annual Meeting.

How CES was impacted by HUD's data changes.
How the data improved across the State because of said changes.

Will think.

I really liked using Mentimeter. It saves time from everyone needing time to talk, and also encourages those that may not enjoy talking in large groups to participate.

Please list anything else that the Governing Board should know about the meeting.

It went surprisingly quick.

Continue to communicate

N/A

How often would you be willing to provide survey feedback about HMIS?

As often as needed to improve the system! Then again, I'm not shy about saying what works, when it does, or what doesn't work, when it doesn't!

Always available

Quarterly

quarterly

Once a year

What's the best format for you to give feedback about HMIS and HMIS-related requests?

Digital – email, survey, menti...any/all of the above

Email

Surveys

online surveys

How can we engage you in a meaningful way about HMIS-related requests that doesn't feel burdensome?

Just ask and sometimes, I'll tell ya even if you don't! :-)
